Yixuan Huang

yixhuang@umich.edu | yixuanhuang04.github.io | Github

Education

University of Michigan *Ann Arbor, MI*
M.S. in Robotics *Expected Aug. 2026*

Wuhan University of Technology *Wuhan, China*
B.S. in Electronic Information Engineering *Sep. 2022 – Present*

Research Interests

I am interested in learning-based robotics, focusing on robotic manipulation and physical interaction. My research aims to enable robots to acquire skills through self-supervised and trial-and-error learning, integrating visual, tactile, and proprioceptive inputs for robust perception and control, while leveraging classical algorithmic and planning methods for efficiency and reliability. Currently, I am working on algorithmic planning for robotic manipulation tasks. I am also broadly interested in autonomous systems that can operate reliably under uncertainty.

Experience

Rutgers University *New Brunswick, NJ*
Research Assistant (Remote) *Jun. 2025 – Present*
Topics: Multi-Robot Task Planning, Industrial Rearrangement, Robotics
Advisor: Prof. Jingjin Yu

Shanghai Artificial Intelligence Research Institute *Shanghai, China*
Research Assistant *Jul. 2025 – Oct. 2025*
Topics: Robotics Perception, 3D Reconstruction, Manipulation
Advisor: Dr. Tianrui Shen

China College Engineering Practice and Innovation Competition *China*
Team Leader *Jun. 2023 – Nov. 2023*
Provincial First Prize, Ranked 2nd Nationwide
Supervisor: Prof. Yi Zhong

Awards

Provincial First Prize, China College Engineering Practice and Innovation Competition *2023*
Ranked 2nd Nationwide

Academic Excellence Scholarship *2023, 2024, 2025*
Wuhan University of Technology

Outstanding Student Award *2023, 2024, 2025*
Wuhan University of Technology

Leadership & Service

Student Affairs Director *Sep. 2022 – Jun. 2025*
School of Information Engineering, Wuhan University of Technology

Student Union Leadership Member *Sep. 2022 – Jun. 2025*
Wuhan University of Technology

Class President *Sep. 2022 – Jun. 2025*
School of Information Engineering, Wuhan University of Technology
